About Me

I am a Front-End development specialist who strives for continuous professional growth and development. I have experience working with Vue3, TypeScript, and SCSS to create cross-browser and cross-platform websites. I am open to various forms of employment and flexible work schedules.

Work Experience

Front-End Developer at MirFox (April 2024 – present)

- Developed cross-browser and cross-platform websites using Vue3 + TypeScript + SCSS.
- Worked with Vue-router to create complex routes and navigation.
- Implemented APIs for backend integration and data exchange.
- Participated in task planning and estimation, actively collaborating with the team.
- Optimized website performance and loading speed.
- Supported and updated existing projects.

Education

Syktvykar Forest Institute (branch of Saint Petersburg State Forest Technical University named after S.M. Kirov)

- Major: Transport-Technological, Information Systems and Technologies
- Years of study: 2022 – 2026
